**T**he choice of wedding gifts is notoriously traumatic. Will you choose the right gift, how much should you spend and how will you find the time? The online Wedding Registry is the answer!

One of the great advantages many couples today have is that frequently at least one partner has already established a home. The basic requirements are in place. Starting a totally new home, however, will require everything from a coffee mug to the dishwasher.

Whichever category suits you, creating a gift registry is definitely the way to go. Guests who attend your wedding are often unsure of what you may need. Family and close friends want to present you with gifts that will add to your future and only you will know which items will meet your needs! For guests who are unable to make it to your wedding or those who live overseas, a secure online gift registry enables them, without any fuss, to choose a gift you will enjoy.
