CAKE Martie

While fitting music announced their arrival and live video footage projected on to a screen, SG and his best man entered the Conservatory on horseback. A groom ready to receive his bride..

The symbolism portrayed through this gesture was to remind the guests that they too can look forward with great excitement to the day Jesus will return to fetch His bride, the Church... and likewise this reunion will be announced with trumpets and music. The only cost implications were the hiring of the horses from Hillcrest Farm Stables, close to Oakfield Farm. The horses were dressed in matching coloured ribbons and their manes had been plaited with flowers. Weddings can be very monotonous. Doing something different is always fresh and welcomed. Don't overdo it, keep it simple and stick to one or two ideas.
